*Third-year Civil Engineering in Computing student, interested in software development. I specialize in Python, Django, and relational and non-relational databases. I am seeking a **professional internship** (180 hours) where I can apply my technical knowledge and learn from professionals in a collaborative environment.*

Portfolio: https://users.dcc.uchile.cl/~fragonza/

PROFESSIONAL EXPERIENCE

Course CC1002 Introduction to Programming — *Course Assistant*   **Santiago,Chile**
August 2024 – December 2024

- Supervised the efficient correction of lab exercises and evaluations, providing feedback to 50 students weekly.
- Implemented Python scripts to minimize the time used in detecting plagiarism.
- Supervised the performance of tests organized by the School of Engineering, overseeing the participation of 50 students per evaluation.

EDUCATION

University of Chile (Third Year)   **Santiago, Chile**
Computer Engineering   *2022 - Present*
Related courses:

- **Software Engineering**: Developed in Python, Django, and managed relational databases (SQLite).
- **Web Application Development**: Developed with Flask, Springboot, and MySQL. Created interfaces using HTML, CSS, and JavaScript.
- **Databases**: PostgreSQL and MongoDB usage.

ADDITIONAL SKILLS

- Native in **Spanish**. **B2 level** in **English** (TOEFL in progress).

CERTIFICATIONS

- **UI and UX Introduction Diploma** (AIEP, Telefónica Movistar and Sence Fundation). Learned to design user-centered interfaces and create interactive prototypes using **Figma**.
- **React.js Diploma** (Platzi). Acquired basic knowledge of **React**, using components and managing states efficiently.
